

Spring Continental Congress of Dermatology

25-27 April 2018, Tehran, Iran

Preliminary Scientific Program

Wednesday 25 April 2018

Time	Khaje Nasir Hall (A)	Molana Hall (B)	Feyz Hall (C)	Attar Hall (D)
9.00 – 11.00	<p>1- Dermatology in Iran (Chairpersons: Dowlati, Handjani, Mortazavi, Reizner, Toosi)</p> <p>Hossein Mortazavi (Iran): History of dermatology in Iran</p> <p>Farhad Handjani (Iran): Dermatology in Iran: Present and future</p> <p>Alireza Firooz (Iran): Dermatologic research in Iran</p> <p>2- Fillers: tips from the experts (Chairpersons: Fanian, Kassir, Katsambas)</p> <p>Martin Kassir (USA): Vascular necrosis with fillers: A dermatologic emergency</p> <p>Andreas Katsambas (Greece): Fillers: 8-point lift</p> <p>Ferial Fanian (France): Chemico-physical characteristics of the hyaluronic acid based skin fillers (Rheologic parameters)</p> <p>Pedram Mehrian (Iran): Facial danger zones</p>	<p>3- Dermatologic surgery 1 (Chairpersons: Fatemi, Field, Rateb)</p> <p>Reza Ghohestani (USA): Approach to melanocytic lesions, when to excise, when to laser?</p> <p>Lawrence M Field (USA): The development and applications of surgical tumescent & bi-level surgical tumescent anesthesia: A personal voyage</p> <p>Evolution of an international dermatologic surgery teaching program and establishment of the world's first ACGME-compliant surgical fellowships - A template for all specialties</p> <p>Amr Rateb (Egypt): Anaesthesia for aesthetic face office procedures</p> <p>Afschin Fatemi (Germany): Cases of fat transfer</p> <p>Marc Roscher (South Africa): Peri ocular procedures for the dermatologist</p>	<p>4- Dermatitis (Chairpersons: Abels, Lotti, Nassiri Kashani)</p> <p>Golara Honari (USA): Sensitive skin: Fact or fiction?</p> <p>Anthony Gaspari (USA): Immunology of contact dermatitis</p> <p>Christoph Abels (Germany): Efficacy of emulsions containing Echinacea purpurea extract in treatment of different types of pruritus</p> <p>Mansour Nassiri Kashani (Iran): Allergic contact dermatitis in Iran</p> <p>Torello Lotti (Italy): Psycho-neuro-endocrine immunology for the office dermatologist</p>	<p>5- Drugs in dermatology (Chairpersons: Azori, Das, Dubertret)</p> <p>Robert A. Schwartz (USA): Life-threatening drug eruptions</p> <p>Sudip Das (India): SJS/ TEN: newer insights</p> <p>Huseyin Serhat Inaloz (Turkey): Off-label uses of IVIG</p> <p>Steve Feldman (USA): Practical ways to improve patients' adherence to treatment</p> <p>Laura Atzori (Italy): Drug induced lupus erythematosus</p> <p>Sharad Mutalik (India): Off label uses of Acitretin</p> <p>Louis Dubertret (France): Patient based medicine: a medical revolution</p>

11.00 – 11.30	Break			
11.30 – 14.00	<p>6- Skin imaging and teledermatology (Chairpersons: Ankad, Bahadoran, Pasquale)</p> <p>Paola Pasquale (Spain): Standardizing photographic images to improve teledermatology results</p> <p>Sidharth Sonthalia (India): Teledermatology & digital imaging: Know the standards, do's and don't's</p> <p>Philippe Bahadoran (France): Dermoscopy and skin imaging for the diagnosis and follow up of skin cancer (melanocytic and non-melanocytic)</p> <p>Balachandra Ankad (India): Dermoscopy of inflammatory skin diseases</p> <p>Luiz Guilherme Martins Castro (Brazil): Dermoscopy for hair and nail disorders</p> <p>Labielle Bruno (France): Reflectance confocal microscopy (RCM) for micrographic surgery of skin tumors</p> <p>Morteza Moatamedi (England): Dermoscopy of pigmented skin lesions</p>	<p>7- Esthetic complications corner (Chairpersons: Dowlati, Lotti, Wiest)</p> <p>Yahya Dowlati (Iran): How to deal with the difficult patient</p> <p>Martin Kassir (USA): Complications of lasers: How to manage?</p> <p>Franco Rongioletti (Italy): Eternal youth granulomas: how histopathology can help the clinician dealing with filler reactions</p> <p>Torello Lotti (Italy): Controversial issues in cosmetic dermatology</p> <p>Luitgard Wiest (Germany): Complications of chemical peels: How to manage?</p> <p>Ashraf Badawi (Canada): Dysmorphophobia</p> <p>Afschin Fatemi (Germany): Complications after lid surgeries and their treatment</p> <p>Amir H. Ehsani (Iran): Complications of fillers: How to manage?</p> <p>Behrooz Barikbin (Iran): Management of complications of PAAG filler</p>	<p>8- Dermatopathology (Chairpersons: Mehregan, Mobini, Shamsi Meymandi)</p> <p>David Mehregan (USA): Dermatopathology potpourri: A clinicopathologic presentation (Part 1)</p> <p>Narciss Mobini (USA): Dermatopathology potpourri: A clinicopathologic presentation (Part 2)</p> <p>Ibrahim Khalifeh (Lebanon): Melanocytic & non-melanocytic mimics of melanoma: Dermatopathology teaching cases</p> <p>Malcolm Hayes (Canada): Interesting cutaneous hematolymphoid lesions</p> <p>Franco Rongioletti (Italy): Lichenoid drug reactions</p> <p>Simin Shamsi Meymandi (Iran): Clinicopathologic correlation of dry type cutaneous leishmaniasis</p>	<p>9- Melasma and other hyperpigmentation disorders (Chairpersons: Ahmad Nasrollahi, Handog, Panda)</p> <p>Evangeline Handog (Philippines): Oral skin lightening agents: Do they work?</p> <p>Saumya Panda (India): Where the twain shall meet: convergence of the clinic and the aesthetics in melisma</p> <p>Behrooz Kasraee (Switzerland): Hydrogen peroxide in the presence of intracellular antioxidants mediates the first and key step of melanin synthesis: A new concept introducing melanin synthesis as a defence mechanism against oxidative stress</p> <p>Gabriel Serrano Sanmiguel (Spain): New findings about tranexamic acid in melasma</p> <p>Hamidreza Rezvani (France): Pigmentary abnormalities in nucleotide excision repair disorders</p> <p>Saman Ahmad Nasrollahi (Iran): Triple combination therapy for melisma</p> <p>Martin Kassir (USA): Microneedling: Safe & effective for melasma</p>
14.00 – 15.00	Prayer & Lunch			

<p>15.00 – 17.00</p>	<p>10- Lasers (Chairpersons: Badawi, Nouri, Tabatabaei)</p> <p>Keyvan Nouri (USA): Laser treatments for scars</p> <p>Hossein Tabatabaei (Iran): Laser and light for wound healing stimulation</p> <p>Venkataram Mysore (India): Laser rejuvenation in brown skin</p> <p>Ashraf Badawi (Canada): Acne scars: Is there a magical solution?</p> <p>Reza Robati (Iran): Comparison of different lasers in skin rejuvenation</p> <p>Afschin Fatemi (Germany): Why I don't use the laser in all of the liposuction cases anymore</p>	<p>11- Dermatologic surgery 2 (Chairpersons: Asilian, Castro, Roscher)</p> <p>Lawrence M Field (USA): The submental space and cervico-mental angle – A dermatologic surgeon's half-century of exponential exploration</p> <p>Luiz Guilherme Martins Castro (Brazil): PDT: An introduction</p> <p>Marc Roscher (South Africa): Dermatological surgery pearls from around the world</p> <p>Ali Asilian (Iran): Micropunch blepharopeeling versus blepharoplasty what is the best procedure for upper eyelid rejuvenation</p> <p>Rajendrakumar Singh (South Africa): Wonder of tumescent anesthetic for various dermatological surgery cases</p>	<p>12- Skin infections (Chairpersons: Morrone, Raboobee, Tyring)</p> <p>Laura Atzori (Italy): Dermatophyte infections mimicking other skin diseases (Tinea atypica),</p> <p>Anthony Gaspari (USA): Generalized verrucosis</p> <p>Noufal Raboobee (South Africa): Treatment of viral warts with Tuberculin antigen</p> <p>Aldo Morrone (Italy): Tropical neglected skin diseases: our experience around the world</p> <p>Stephen Tyring (USA): Emerging infectious diseases</p> <p>Ismaël Maatouk (Lebanon): What's new in STIs in 2018?</p> <p>Mihael Skerlev (Croatia): HPV, men and vaccine from the global perspective</p>	<p>13- Evidence based dermatology (Chairpersons: Haghdoost, Tursen, Valia)</p> <p>Saumya Panda (India): An incipient field in an emerging country: the challenges of evidence-based practice of dermatology in India</p> <p>Umit Tursen (Turkey): Evidence-based treatment of Behçet's disease</p> <p>Dedee Murrell (Australia): Evidence based treatment of bullous pemphigoid</p> <p>Torello Lotti (Italy): Vitiligo is a systemic disease and needs always systemic approach- guide to systemic treatment</p> <p>Ameet Valia (India): Better medical writing</p> <p>Ali Akbar Haghdoost (Iran): Iran Cochrane Group</p>
<p>18.00 – 21.00</p>	<p>Opening ceremony</p>			

Spring Continental Congress of Dermatology

25-27 April 2018, Tehran, Iran

Preliminary Scientific Program

Thursday 26 April 2018

Time	Khaje Nasir Hall (A)	Molana Hall (B)	Feyz Hall (C)	Attar Hall (D)
9.00 – 11.00	<p>14- Blistering diseases (Chairpersons: Chams-Davatchi, Joly, Murrell, Zillikens)</p> <p>Detlef Zillikens (Germany): New insights into diagnosis and treatment of bullous pemphigoid</p> <p>Suresh Joshipura (India): Pemphigus and herpes simplex: an interesting correlation</p> <p>Pascal Joly (France): An evidence based medicine argument for making rituximab a first line therapy for pemphigus</p> <p>Dedee Murrell (Australia): Autoimmune blistering diseases in neonates & children</p> <p>Maryam Daneshpazhooh (Iran): Pemphigus vulgaris: National guideline for rituximab therapy</p> <p>Reza Ghohestani (USA): Blistering skin diseases: What's new?</p>	<p>15- Acne (Chairpersons: Balighi, Katsambas, Szepietowski)</p> <p>Andreas Katsambas (Greece): Acne scarring: What to do?</p> <p>Ashraf Badawi (Canada): Acne scars management: Are we doing the right thing?</p> <p>Venkataram Maysore (India): Safety of dermatosurgical procedures in patients on isotretinoin</p> <p>Martin Kassir (USA): Light sources for acne</p> <p>Jacek Szepietowski (Poland): Hidradenitis suppurativa: Current treatment options</p> <p>Kamran Balighi (Iran): Acne: Challenging cases</p>	<p>16- Skin cancers 1: Malignant melanoma (Chairpersons: Babakoochi, Khalifeh, Reizner)</p> <p>Shahab Babakoochi (USA): Updates in advanced and metastatic melanoma</p> <p>Ibrahim Khalifeh (Lebanon): Extended BRAF analysis for melanocytic neoplasms in Near East populations Molecular framework of melanoma & their diagnostic and treatment implications</p> <p>George Reizner (USA): Melanoma: A new era of options</p>	<p>17- Pediatric dermatology (Chairpersons: Farajzadeh, Murrell, Taeib)</p> <p>Huseyin Serhat Inaloz (Turkey): Pediatric psoriasis</p> <p>Dedee Murrell (Australia): Anti-inflammatory agents & new topical therapies for EB</p> <p>Alain Taeib (France): Propranolol and hemangioma, ten years later</p> <p>Saeedeh Farajzadeh (Iran): Treatment of vitiligo in children</p> <p>Mohammadreza Barzegar (Iran): Some tips in pediatric dermatology</p>

Break

11.00 –
11.30

11.30 –
14.00

18- What's new in dermatology? (Chairpersons: Gaspari, Kassir, Nouri, Ruzicka)

Keyvan Nouri (USA): What's new in lasers?

Martin Kassir (USA): What's new in microneedling?

David Mehregan (USA): What's new in dermatopathology?

Marc Roscher (South Africa): What's new in dermatologic surgery?

Abhay Satoskar (USA): What's new in leishmaniasis?

Anthony Gaspari (USA): What's new in metal allergy?

Thomas Ruzicka (Germany): What's new in dermatotherapy?

Agnes Otto (Hungary): What's new in cutaneous lymphomas?

19- Vitiligo (Chairpersons: Gauthier, Ghalamkarpoor, Parsad)

Alain Taeib (France): Vitiligo: learning from research and international collaboration

Yvon Gauthier (France): Could the melanocyte adhesion impairment be responsible for initiating the auto-immune process in vitiligo skin?

Laila Benzekri (Morocco): A transepidermal transplantation of basal cell layer suspension using a dermarolling/dermastamp system in vitiligo: A sequential histological and clinical study

Ferial Fanian (France): Effect of phenytoin on the primitive human melanocytes: In vitro and animal study

Davinder Parsad (India): Vitiligo: translating vitiligo research into clinical applications

Mehdi Rashighi (USA): Vitiligo: Immunopathogenesis and emerging treatments

Sharad Mutalik (India): Melanocyte keratinocyte cell transplant for stable vitiligo

Fariba Ghalamkarpoor (Iran): Similar histological traits observed in the melanocytes in vitiligo and parietal cells in autoimmune atrophic gastritis

Vinod Kumar Sharma (India): Platelet Rich Plasma in treatment of vitiligo and other dermatoses

20- Skin cancers 2: Non melanoma skin cancer (Chairpersons: Haddadi, Pasquali, Ruzicka)

Thomas Ruzicka (Germany): Basal cell carcinoma - clinical spectrum and new developments in diagnosis and treatment

Nedic Zoran (Turkey): Topical therapy of BCC

Zeljko Mijuskovic (Serbia): Treatment of advanced basal cell carcinoma

Hamidreza Rezvani (France): Oxidative stress in UV-induced skin cancer and skin aging: lesson from xeroderma pigmentosum

Luiz Guilherme Martins Castro (Brazil): Non-surgical treatments for skin cancers

Paola Pasquale (Spain): Tele dermatology and skin cancer: from prevention to diagnosis

Mohammad Rizvi (Norway): Declining risk of cutaneous squamous cell carcinoma after organ transplantation

Shahriar Haddadi (Iran): Pre-surgical high frequency ultrasonography for BCC

21- Women's Dermatologic Society (Chairpersons: Daneshpazhooh, Shamsi-Meymandi, Murrell, Wiest)

Dedee Murrell (Australia): History of the WDS

Simin Shamsi-Meymandi (Iran): TBA

Pegah Ceric-Dehdari (UAE): Optimizing fillers for women

Maryam Daneshpazhooh (Iran): How we manage pemphigus in pregnancy?

Martin Kassir (USA): How should men support the WDS?

Evangeline Handog (Philippines): WDS in the Philippines

Parvin Mansouri (Iran): Efficacy and safety of fractional QS NDYAG laser on eyes dark circles

Maryam Ghiasi (Iran): Psoriasis and pregnancy

14.00 –
15.00

Prayer & Lunch

15.00 –
17.00

22- Skin care and cosmeceuticals (Chairpersons: Ayatollahi, Honari, Kassir)

Golara Honari (USA): Preservatives in skin care

Martin Kassir (USA): Natural active ingredients

Belma Tursen (Turkey): Water and dermatology

Azin Ayatollahi (Iran): Cosmetic procedures in sensitive skin

Mazen Raydan (Russia): 5 nm hyaluronic acid ionized with minerals as novel method of delivery of essential microelements across skin barrier, minerals balance and their impact on skin health, immunity and appearance

Hesham Moneer Ahmad (UAE): Effect of topical tretinoin on photoaged facial skin: histometric, immunohistochemical and ultrastructural study

23- Skin Inflammation & Psoriasis International Network (SPIN) (Chairpersons: Dubertret, Shahidi Dadras, Zargari)

Nejib Doss (Tunisia): Nail psoriasis

Louis Dubertret (France): Management of atopic dermatitis in adults

Jacek Szepietowski (Poland): Management of pruritus in psoriasis and atopic dermatitis

Julia Mogulevtseva (Russia): The potential benefits of shRNA mediated MMP1 silencing for psoriasis

Fahimeh Abdollahi Majd (Iran): Angiotensin converting enzyme and subclinical atherosclerosis in psoriasis: Is there any association?

Mohammad Shahidi Dadras (Iran): The correlation between NTpro BNP and subclinical atherosclerosis in patients with psoriasis

Miroslav Dinic (Yugoslavia): Palmoplantar pustulosis: Ten years' experience of a single center 2007-2017

Omid Zargari (Iran): Psoriasis: practical pearls

Nader Zarrinpur (Iran): New developments in biologic therapy for psoriasis

24- Skin cancers 3: Other tumors (Chairpersons: Bagot, Moll, Schwartz)

Syed Mansoor Pirzada (Canada): Mycosis fungoides: A wolf in sheep's clothing

Martine Bagot (France): Future management of cutaneous T cell lymphomas

Robert A. Schwartz (USA): Kaposi's sarcoma

Bahram Sina (USA): Mammary Paget disease and extra mammary Paget disease

Ingrid Moll (Germany): Pathogenesis and management of Merkel cell carcinoma – What is new?

25- Free communications 1 (Chairpersons: Esmaili, Jowkar, Maleki, Sadeghian, Yaghoobi)

Krishnakant Pandya (India): Dermoscopic dermavision with brilliance

Noureddine Litaïem (Tunisia): Clinical, dermoscopic and treatment profile of onychomycosis in Tunisia

Bashir Barakzaie (Afghanistan): A case series study of cutaneous anthrax in Dermatology Department, Herat Regional Hospital, Herat City Afghanistan, Feb 2014 - October 2017

Seyd Naser Emadi (Iran): Skin manifestation in HIV/AIDS in Kenya

Seyed Ehsan Asadi (Iran): Management of acute bacterial skin and skin structure infections with a focus on patients at high risk of treatment failure.

Jie Liu (China): The role and molecular mechanism of TOX in mycosis fungoides

Shima Jahani (Iran): Circular RNAs a new biomarker for diagnosing nonmelanoma skin cancer

Mohammadreza Ghassemi (Iran): The evaluation of GGC and CAG repeat lengths on the androgen receptor gene in Iranian men with and without androgenetic alopecia

Sahar Dadkhahfar (Iran): Ocular findings in patients with lichenplanopilaris
Mahsa Mohammad Amoli (Iran): Macrophage migration inhibitory factor gene polymorphism in alopecia areata possible role in disease prevention

Keyvan Sedaghat (Iran): Lactococcus emulsion improves the skin barrier function

Spring Continental Congress of Dermatology

25-27 April 2018, Tehran, Iran

Preliminary Scientific Program

Friday 27 April 2018

Time	Khaje Nasir Hall (A)	Molana Hall (B)	Feyz Hall (C)	Attar Hall (D)
9.00 – 11.00	<p>26- Botulinum toxins: Tips from the experts (Chairpersons: Katsambas, Mehrian, Wiest)</p> <p>Luitgard Wiest (Germany): Tips for the upper face</p> <p>Andreas Katsambas (Greece): Botulinum toxin-A: mid and lower face</p> <p>Zahra Shiri (Iran): Immunogenicity to botulinum neurotoxins: long term clinical relevance in aesthetic and therapeutic injections</p>	<p>27- Skin rejuvenation (Chairpersons: Badawi, Firooz, Inolaz)</p> <p>Ashraf Badawi (Canada/Egypt): Facial rejuvenation: What is the target?</p> <p>Huseyin Serhat Inaloz (Turkey): The advantageous uses of growth factors & skin stamp in cosmetology</p> <p>Pegah Ceric-Dehdari (UAE): Safe and natural rejuvenation of the aging face</p> <p>Alireza Firooz (Iran): Evaluation of the safety and efficacy of high intensity focused ultrasound (HIFU) for skin rejuvenation of face and neck: A systematic review</p> <p>Ishad Aggarwal (India): LOFARCUT protocol: Lower facial remodeling with combination therapy of ultrasound [high intensity focused ultrasound -HIFU] and botulinum toxin – A pilot study in Indian patients with masseter hypertrophy and facial adiposity</p> <p>Samad Rezaeekhiabanloo (Iran): Outcomes in thread lift of head and neck with Silhouette Soft and Proma Happy Lift double needle: Innovative and classic techniques</p>	<p>28- Skin regenerative medicine (Chairpersons: Ghahary, Mansouri, Nilforoushzadeh)</p> <p>Aziz Ghahary (Canada): A novel induction of alopecia areata and restoration of hair growth by fibroblast cell therapy in an AA mouse model</p> <p>Mohammad Ali Nilforoushzadeh (Iran): TBA</p> <p>Mohammadreza (Sam) Pakyari (Canada): A novel method for prolongation of allogeneic skin graft survival</p> <p>29- War related dermatology (Chairpersons: Davoudi, Emadi, Morrone)</p> <p>Aldo Morrone (Italy): Skin diseases in Human Mobile Population: our experience in war areas</p> <p>Syed Naser Emadi (Iran): Late cutaneous manifestations 30 years after wartime exposure to sulfur mustard gas: A long-term investigation</p> <p>Seyyed Masoud Davoudi (Iran): Skin problems of amputees</p> <p>Tooba Ghazanfari (Iran): Immunologic responses in sulfur mustard victims</p>	<p>30- Free communications 2 (Chairpersons: Darjani, Mashayekhi, Robati, Sobhan)</p> <p>Ankur Sarin (India): Low dose Rituximab in treatment of pemphigus vulgaris patients</p> <p>Reza Robati (Iran): Electrocardiographic changes after high dose corticosteroid pulse therapy in pemphigus patients</p> <p>Ashraf Kariman (Germany): Influence of Myrtus communis extracts on the keratinocytes barrier</p> <p>Hesham Moneer Ahmad (UAE): Future medications for moderate to severe atopic dermatitis</p> <p>Atula Gupta (India): Role of contact allergy in patient with chronic urticaria, detected by patch testing, correlation with serum IgE levels and quantitative therapeutic outcome of allergen-avoidance</p> <p>Madarkar (India): Comparative study of safety and efficacy of oral betamethasone pulse therapy and azathioprine in vitiligo</p> <p>Biplav Agarwal (India): Maturational Hyperpigmentation [MH]: A newly recognized cutaneous marker of metabolic syndrome</p> <p>Mohammad Namazi (Iran): The novel use of the extensively mobilized island pedicle flap pexed to the nasal bone periosteum for reconstruction of the medial upper cheek lower eyelid defects</p> <p>Elias Salimi (Iran): Delay skin flap</p> <p>Behzad Iranmanesh (Iran): Blunt Cannula subcision is more effective for acne scars than Nokor needle subcision</p>

11.00 – 11.30	Break			
11.30 – 14.00	<p>31- Leishmaniasis (Chairpersons: Moulton, Karbwang, Gouya)</p> <p>Mohammad Mehdi Gouya (Iran): Leishmaniasis in Iran</p> <p>Larry Moulton: (USA): Cluster randomized trials for leishmaniasis control</p> <p>Abhay Satoskar (USA): Host directed therapies for leishmaniasis, A live attenuated vaccine for leishmaniasis,</p> <p>Juntra Karbwang (Japan): Research integrity</p> <p>Farrokh Modabber (Switzerland/Iran): Overview of leishmaniasis vaccine development</p> <p>Ibrahim Khalifeh (Lebanon): Cutaneous leishmaniasis: a story to tell Cutaneous leishmaniasis in Lebanon: Effect of Imiquimod & its derivative EAPB0503</p> <p>Ali Khamesipour (Iran): Efficacy of combination of topical liposomal amphotericin B and meglumine antimoniate in comparison with meglumine antimoniate alone for the treatment of anthroponotic cutaneous leishmaniasis caused by <i>Leishmania tropica</i></p> <p>Ali M. Harandi (Sweden): Molecular signatures of human vaccines in humans and animal models</p>	<p>32- Disorders of hair and nail (Chairpersons: Abbasi, Doss, Heneke)</p> <p>Alexandre Guichard (France): Chemotherapy-induced alopecia, state of the art</p> <p>Balachandra Ankad (India): Trichoscopy of cicatricial alopecia</p> <p>Ali Abbasi (Iran): Scarring alopecia mimicking androgenetic alopecia</p> <p>Venkataram Maysore (India): Hair restoration-what works, what does not.</p> <p>Eckart Haneke (Switzerland): Management of nail melanoma</p> <p>Nejib Doss (Tunisia): Onychomycoses: Diagnosis and treatment</p> <p>Balachandra Ankad (India): Onychoscopy of inflammatory nail diseases</p>	<p>33- Skin and systemic diseases (Chairpersons: Kibbi, Reich, Zhang)</p> <p>Abdul Ghani Kibbi (Lebanon): The year in summary – challenging cases</p> <p>Pooya Khan Mohammad Beigi (Canada): Updates on acrodermatitis enteropathica</p> <p>Adam Reich (Poland): Trigger factors of cutaneous lupus erythematosus</p> <p>Jianzhong Zhang (China): Cutaneous graft versus host disease: an update</p> <p>Siamak Moghadam-Kia (USA): Anti-MDA5 auto-antibody: Clinical spectrum in patients with dermatomyositis in North America</p>	<p>34- Free communications 3 (Chairpersons: Behrang, Ghiasi, Khodaeiani, Mohammadi)</p> <p>Tanja Planinšek Ručigaj (Slovenia): Results of genetic investigations of patients with primary lymphoedema in Slovenia</p> <p>Hadaf Aljunaiyeh (Iraq): An overview of prevalent female genital dermatoses in Nasiriya</p> <p>Nooshafarin Kazemi khoo (Iran): Comparison the effects of low level laser therapy and split thickness skin grafting in children with grade 2b and 3 burn ulcer: A randomized clinical trial.</p> <p>Mohammad Soleimani (Iran): Efficacy and safety of long pulse Nd YAG laser versus fractional Er YAG laser in the treatment of facial skin wrinkles</p> <p>Zeinab Fazel (Iran): Evaluation of normal flora of the axilla before and after using hair removal laser: A clinical trial</p> <p>Muhsin Aldhalimi (Iraq): Treatment of alopecia areata with Er.YAG laser</p> <p>Mohamad Goldust (Iran): Efficacy of oral tranexamic acid plus low power fractional CO₂ laser versus oral tranexamic acid plus Qswitch laser for treatment of melasma: Randomized, controlled, split face study</p> <p>Haider Alsabak (Iraq): Treatment of resistant acral vitiligo with fractional Erbium Yag laser</p> <p>Rajendrakumar Singh (South Africa): Laser liposuction</p>
14.00 – 15.00	Prayer & Lunch
